<p><i>The "Federal Agency HQ" reference sheet provides a current overview of civilian federal agency headquarters, detailing their locations, primary work sites (places of performance), and top vendor locations (recipient locations documented in their SAM profile). The majority of agency headquarters, work sites, and vendors are presently situated in the DMV area. As agencies undergo relocation or reorganization, these data points are likely to change.</i></p> <p><i>Disclaimer: Top Civilian Funding Agencies Only. Includes only Prime awards (both IDVs & contracts) between FY21-25. Only new awards were counted. Calculations between the County and the State are separate. This means that the Top County may not always reside in the Top State. In the USASpending.gov world, Washington, D.C., is considered a County. Don't look at us. We don't make the rules.</i></p> <p><i>Source: USASpending.gov</i></p>
